**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I live in Northern California and I have sonic.net as my service provider. They use ADSL2+ using AT&T's copper to provide Internet access. Plus the best telephone service for the lowest price I've ever had. In short there the least expensive service around. They also do not capture any of my interaction on the Internet or engage in any other invasion of my privacy. They have the best customer service I've experienced from any company I have had the experience of dealing with.

If you allow AT&T to deny sonic from using their copper or fiber you will leave me with either AT&T or Comcast. I do not want to have to go to either one of these very large corporations. Capitalism is about competition not monopoly. If you allow the big guys to monopolize the Internet it will no longer be a democracy.

Thanks for reading this.
